

Teo Giampietro

SR FULL STACK .NET DEVELOPER

teogiampietro@gmail.com
linkedin.com/in/teogiampietro

Argentina · Remote

Sr Full Stack .NET Developer with 7+ years of experience in backend and full-stack development using .NET technologies — including .NET Core, .NET Framework, Blazor, and WinForms. Strong experience building REST APIs, working with relational and legacy databases, and supporting enterprise applications across healthcare, fintech, and logistics domains. Skilled in microservices-based systems, cloud environments on Azure and AWS, and database-driven applications, with solid exposure to CI/CD, unit testing, and Agile/Scrum. Proven ability to collaborate with cross-functional teams — backend, frontend, QA, and product — to deliver scalable and reliable software.

SKILLS

PROFESSIONAL EXPERIENCE

Sr Full Stack Developer · Qubika

Jun 2023 – Present

Qubika (founded 2005, HQ Texas, US) is a digital engineering and IT services company formed from the 2023 merger of Moove IT and December Labs, delivering cloud, data, and product engineering across the US and Latin America.

- Develop and maintain backend services in .NET for a U.S.-based identity and security platform (Pluralsight project), focused on authentication and authorization flows.
- Implement backend features supporting identity management and secure access control for enterprise systems.
- Participate in zero-downtime database migration projects from Cassandra to PostgreSQL, ensuring no service interruption.
- Build and maintain background task-processing systems for internal automation and asynchronous workflows.
- Collaborate in Agile/Scrum teams using Azure DevOps and Git for delivery and code-review processes.

Stack .NET · C# · AWS · Git · Cassandra · PostgreSQL · Docker

Full Stack Developer · Freelance

2023

- Developed frontend and backend features for a facial-recognition application using Blazor and .NET Core.
- Integrated third-party facial-recognition services (Facetec) into identity-verification workflows.
- Built and maintained REST APIs supporting authentication and verification processes.
- Supported deployment and configuration of the application on the Microsoft Azure cloud environment.

Stack .NET Core · C# · Blazor · Microsoft Azure · REST APIs · Facetec

Back End Developer · Futuros y Opciones (FyO)

Jun 2021 – Jun 2023

FyO (founded 1999, HQ Argentina) is an agribusiness company serving the agricultural value chain, with an ecosystem spanning grain commercialization, financing, logistics, and risk management.

- Designed and developed REST APIs using .NET Core and C# for enterprise backend services in the logistics domain.
- Worked on the core Logistics module, supporting critical business operations within the platform.
- Implemented Azure Functions to support event-driven backend processes and automation tasks.
- Optimized SQL Server queries and stored procedures, improving performance and resolving recurring production issues.
- Acted as technical lead for backend development within the logistics team, coordinating tasks and supporting delivery.
- Supported production systems, troubleshooting incidents and ensuring stability in high-availability environments.

Stack C# · .NET Core · ASP.NET Web API · SQL Server · Microsoft Azure · Microservices · DevOps · Unit Testing

Full Stack Developer · Algoritmo Soft House

Apr 2020 – Jun 2021

Algoritmo (founded 1995, HQ Buenos Aires, Argentina) is a digital agency and technology company providing software development, UX/UI design, and digital product solutions for clients across Latin America and international markets.

- Maintained and developed system modules including clinical history and appointment scheduling.
- Developed Windows Forms applications using .NET Framework and Visual Basic .NET.
- Created reports with Crystal Reports for operational and business data.
- Worked with Oracle Database and relational data systems, supporting maintenance of legacy applications.

Stack .NET Framework · C# · Visual Basic · WinForms · SQL Server · Oracle · Crystal Reports

EDUCATION

B.Sc. in Systems Engineering

2015 – 2020

Universidad Abierta Interamericana
